---

*Versatile and driven 4th-year BS Information Technology student with experience across web development, quality assurance, and creative design. Proficient in front-end and back-end technologies including HTML, CSS, JavaScript, Python, and PHP, with practical use of frameworks like Flask and Laravel. Skilled in database management using MySQL, SQLite, and PostgreSQL. Adept at crafting responsive, user-friendly interfaces and conducting structured QA testing. Now seeking opportunities to apply and further sharpen technical skills in dynamic, real-world environments.*

## EDUCATION

---

### BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

2021-2025

Polytechnic University of the Philippines – Quezon City

Current GWA: 1.3243

### TECHNICAL VOCATIONAL LIVELIHOOD TRACK

Information and Communications Technology Strand

2019-2021

Caloocan City Business High School

Graduated GWA: 95

## EXPERIENCES

---

### GRAPHIC DESIGN & WEB DEVELOPMENT INTERN

My Own EVA (March – May 2025)

- Conducted QA testing on live and staging environments, providing detailed documentation, feedback, and UI/UX improvement suggestions.
- Contributed to visual design tasks including short-form video editing and graphic materials aligned with brand guidelines.

## ACADEMIC PROJECTS

---

### SYNCORE: HEALTHCARE FINANCE MANAGEMENT SYSTEM

Capstone Project | Project Manager & Full-Stack Developer

Python (Flask), HTML, CSS, JavaScript, PostgreSQL

- Built a comprehensive finance system for hospitals, including billing, insurance integration, and resource tracking..
- Oversaw the Agile-based development process and ensured timely delivery with full-stack contributions.

### COMET.AL: JEWELRY E-COMMERCE PLATFORM

Web Development Project | Full-Stack Developer

Laravel, HTML, CSS, JavaScript, MySQL

- Developed inventory and order management modules and led the branding and front-end implementation.
- Integrated product APIs and managed the overall user experience.

## **TATAK: BUSINESS NAME AND LOGO GENERATOR**

*Application Development and Emerging Technologies Project | Full-Stack Developer*

*Python (Flask), HTML, CSS, Javascript*

- Built a Flask-based web tool that dynamically generates unique business names and logos with a clean, responsive UI using native HTML/CSS.
- Integrated name-generation algorithms, logo tools, and deployed publicly on Render: [tatak1.onrender.com](https://tatak1.onrender.com).

## **ALGORITEES: CUSTOM T-SHIRT E-COMMERCE WEBSITE**

*System Integration and Architecture Project | Front-End Developer*

*HTML, CSS, JavaScript*

- Designed user-friendly shopping cart and checkout modules with secure processes and seamless navigation.
- Created the brand identity (name/logo) and collaborated on integrating modules into a cohesive platform.

## **#MEMOW: NOTE TAKING WEB APPLICATION**

*Database Administration Project | Project Manager & Full-Stack Developer*

*ASP.Net, C#, HTML, CSS, JavaScript, MySQL*

- Led development of a CRUD-based note-taking web app with secure, account-based storage and responsive UI/UX.
- Designed the database, branding, and cross-device compatible interface to reduce device storage dependency.

## **ADDITIONAL SKILLS**

---

- Experience with Capture the Flag (CTF) challenges, focusing on vulnerability assessment, ethical hacking, cryptography, and steganography.
- Experienced in configuring and understanding templates.
- Proficient in database management using MySQL, SQLite, and PostgreSQL.
- Knowledgeable in quality assurance with experience in automation testing using Mabl and Jenkins.
- Experienced in using tools like Git, GitHub, Power BI, Canva, TablePlus, and Postman.
- Experience in social media management, maintaining the CommITs organization page to provide updates and engagement for BSIT students.
- Fluent in English.

## **CHARACTER REFERENCE**
